• INTRODUCTION

I am a quick learner with a strong willingness to explore and work with new technologies. With an analytical mindset and a passion for problem-solving, I am eager to contribute to delivering insights to organization's global clients, who are leaders in the technology sector. The opportunity to learn organization-specific tools and methodologies, alongside honing communication skills to meet industrial standards, aligns with my career goals. I am particularly inspired by organization's focus on innovation and world-class service delivery, and I am motivated to grow within this environment while contributing to meaningful projects.

• SKILLS

- Technical Language proficiencies: C, Python.
- Web Development competencies: HTML,CSS,JAVASCRIPT
- Databse Intelligence: MySQL
- Soft Skills: Problem solving, Time Management, Analytical Thinking.

• Educational details

- **Bachelor of Technology in Electrical Domain**   **June 2021-June 2025**
  RCC Institute of Information Technology,CGPA:**7.816/10(upto 7th sem)**
- **Higher Secondary Education**   **June 2019-June 2021**
  Sarada Vidyapith, Percentage: **84%**
- **Secondary Education**   **January 2014-February 2019**
  Sarada Vidyapith,Percentage: **86.14%**

• Certifications

- **Proficient in   Python Programming Language**   **Feb-Aug 2023**

Pursued a learning course on python programming language from **Learnwik Solutions Pvt Ltd**   helped me to construct problem solving and analytical thinking in coding. The training aided me to learn data structures and algorithms, control flow, fundamentals of object oriented programming.
Certificate: https://drive.google.com/file/d/1JAofoYJe8niZ7MzJoRSPDl35MPizK3uN/view?usp=sharing

- **Javascript Certification**   **May 2024**

Advanced learning of scripting language to create logic in web development framework under **Lernx India.** Here I learned from basics of javascript like loops,functions,variables to error handling,fetch APIs and types of http etc.
Certificate: https://drive.google.com/file/d/1gPsl3nTL587ZP6cNRFFZhLAJWHCs87RF/view?usp=drivesdk

• Projects and Trainings

- **Creating a Blood Management Project website**

Creating an user friendly website on blood management.It consists both registration and login page of individual users and other medical centers. Through the website all the users can donate blood or fulfill the lack of blood requirements .To do this every user will have to mention the amount of blood required or donated by logging in the website. Technical Stack used: **HTML**,**CSS**,**JAVASCRIPT**.
